

Tohidul Islam

Senior Product Designer | UX & Design Systems

ABOUT ME

I started my journey in front-end development in 2016 and later expanded into UI/UX design in 2018. Since then, I've worked on SaaS platforms, eCommerce solutions, mobile apps, on-demand services, and dashboards—helping teams turn ideas into simple, user-friendly digital experiences. I'm passionate about problem-solving and design thinking, with a strong focus on usability, design systems, and creating pixel-perfect products that people love to use.

EXPERIENCE

UI/UX Designer

Syntax Solutions Ltd. - Dhaka Bangladesh

April 2024 - Present

Leading innovation for Nasir Group by crafting user-focused digital solutions. I contributed to product design using Figma, creating intuitive mobile apps and responsive websites. My role included designing engaging user interfaces, collaborating with cross-functional teams, gathering requirements, and delivering projects aligned with business needs.

UI/UX Designer

Kaicom Solutions Ltd. - Dhaka, Bangladesh

May 2022 - November 2023

Kaicom Solutions is a private company specializing in Information Technology and Services. As a UI/UX Designer, I focused on product design using Figma, creating mobile apps and responsive websites. I collaborated closely with team members, participated in client meetings, gathered requirements, and delivered user-friendly solutions aligned with project goals.

UI/UX Designer & Frontend Developer

Qproco Ltd. - Remote

September 2021 – April 2024

Qproco is a private company specializing in the global online marketplace with eCommerce stores in Bangladesh and Poland. At Qproco, I worked as both a UI/UX Designer and Front-End Developer, focusing on product design with Figma and building intuitive mobile apps and websites. I developed responsive front-end solutions using Vue.js and Nuxt.js, while collaborating with team members, attending meetings, gathering requirements, and delivering projects tailored to business and user needs.

UI/UX Designer & Frontend Developer

Makeup world BD - Dhaka, Bangladesh

May 2020 - August 2021

Makeup World BD is a cosmetics and makeup eCommerce company based in Bangladesh. In this role, I led product design using Figma and Adobe XD, creating mobile apps, web assets, and responsive features. I gathered product requirements, designed solutions, and implemented them using Vue.js and Nuxt.js. As a senior designer and developer, I ensured seamless user interactions and engaging experiences while coordinating with copywriters and graphic artists to integrate images, icons, banners, audio, and other creative elements into the website.

Web Designer & Developer

Nogor Solutions Limited - Dhaka, Bangladesh

October 2016 - May 2020

Nogor Solutions Ltd. is a software firm offering IT services. In this role, I worked on product design using Figma, Adobe XD, and Photoshop, creating web assets such as landing pages, banners, and email headers for events, shows, and promotions. I developed responsive websites using CSS3, SASS, LESS, HTML5, Laravel, PHP, JavaScript, and Vue.js. My responsibilities also included collaborating with team members, attending meetings, gathering requirements, and delivering projects aligned with client and business needs.
